### !!! PRAY and VOTE !!!

We would like you to join us in praying the holy Rosary, from now until election day, for the positive outcome of the election. This includes all masses at Saint Edward's and Saint Paul's. May God's will be done!

The newborn and hospice kits still are in need of items. Please check the hall bulletin board. The best places to make any purchases are the dollar stores, thrift stores and Walmart. The towels and onesies can be just gently used ones. *Women's Council of St. Edward's*

## SAINT OF THE WEEK – EXAMPLES OF OUR FAITH

### **St. Mary Joseph Rossello**

St. Mary Joseph Rossello (May 27, 1811-December 7, 1880) whose given name was Benedetta, was one of nine children, born to a poor family in the seaport of Albisola Marina, Liguria, Italy. At a young age she was sent to live with and work for a childless couple. She stayed in their service for seven years, but even during this time her calling was strong, and she entered the third order of Franciscans at the age of 16. However, she longed to dedicate her life to God in a community of sisters. The religious orders of the time were accustomed to receiving dowries when young women sought entrance, but her poor family had nothing to give. Although the couple in whose service she worked could have supplied the dowry, they selfishly wanted to keep her for themselves, and so she was denied entry.

The Lord provided for St. Mary Joseph in the form of the bishop of Savona who recognized in her a unique ability to teach. She and three other young women were given a house, with some rooms made into classrooms and in 1837 they began the Institute of the Daughters of Our Lady of Mercy, teaching the young and caring for the sick. Benedetta took the name Mary Joseph when she professed her vows in 1840. She was appointed Superior General of the order and led the community as mother superior for 40 years. A dowry was never required to enter the order.

In 1875 the order opened their first house in the Americas in Buenos Aires, Argentina and continued to grow to more than three thousand sisters in two hundred houses spread across the world. St. Mary Joseph was beatified in 1938, and canonized Pope Pius XII in 1949. St. Mary Joseph Rossello, pray for us!

### ***I have set before you life and death, the blessings and the curse. Choose life, then.***

It is hard to believe it has been almost a year since we worked together to pray for the end to abortion. With Our Lady's intercession, Jesus Christ our Lord and Savior, and the 40 Days for Life Prayer Warriors, perhaps we can turn the tide and prevent further loss of LIFE in the womb and walk with moms who need our prayers and support, by Peacefully Praying at the Women's Health Center, the abortion facility in Duluth.

40 Days for Life Prayerful Vigil Campaign is September 25 - November 3, 2024. The website to sign up for prayer vigil hours is up and running and can be found at <https://www.40daysforlife.com/en/duluth>.

### **Skin Care/Cancer**

-UVA AND UVB RAYS ARE BOTH PREVALENT IN OUR ATMOSPHERE AND ABSORBED BY OUR SKIN, UVC RAYS ARE THE STRONGEST OF THE 3 BUT NEVER MAKE IT TO EARTH'S SURFACE AS THEY ARE ABSORBED BY THE OZONE LAYER!

-Skin cancer is the most common type of cancer in the United States and in the world. 1 in 5 Americans will develop skin cancer by age 70. Prolonged exposure to UV rays increases your risk for skin cancer, such as basal cell carcinoma, squamous cell carcinoma, and melanoma (the most deadly form of skin cancer).

-You can protect yourself from UV rays and lower your risk of getting sunburns and developing skin cancer by using sunscreen. Sunscreen works by preventing UV rays from penetrating the skin in different ways.

- Physical sunscreens use minerals that reflect UV rays back  
- Chemical sunscreens use specific chemicals that absorb UV rays and

undergo a chemical reaction, transforming the UV rays into heat and releasing them.

- Other prevention strategies include limiting time in the sun, staying in the shade, not using tanning beds or booths, wearing a sunhat and sunglasses outdoors, and covering your skin with long sleeves and pants.

- Summer months and all year, make sure you are engaging in UV safety by staying in the shade, using sunscreen (SPF 30 or higher is best), and not using indoor tanning beds or booths.
